

COMPANY PROFILE

AIE Trade Private Limited.,

www.aietrade.com

www.jokine3d.com

ABOUT OUR COMPANY

AIETrade Private Limited., headquartered in Mumbai, India, is a diversified global trading and manufacturing company. It was originally established in 1996 as ANT International Exports and later upgraded and registered as AIE Trade Private Limited in 2016. AIE Trade has been engaged in international sourcing, product development, and specialized technology manufacturing, serving industries such as agriculture, electronics, media, AI, and cinema.

The company has operational footprints across India, UAE, Germany, Australia, Malaysia, Vietnam, Uruguay, and Tanzania, supported by a robust network of international distribution and strategic partnerships.

VISION

Harnessing the futuristic technology integration into business stream and focusing into development of newly enabled AI products to enhance the entire Cinema Industry to attain its top-notch class. The Owners continuously strive with the goal to endeavour with bringing in the new and innovative products into the market.

MISSION

- To provide world-class, DCI-compliant cinema technologies under the Jokine3D brand, tailored to enhance visual Impact and overall audience experience.
- To foster innovation through dedicated R&D, continually introducing advanced optical, electronic, and AI-integrated cinema solutions.
- To uphold exceptional quality, customer service, and reliability in every product and partnership.
- To expand AIE Trade's global reach through ethical business practices, smart collaborations, and technological excellence.

INTRODUCING **JOKINE3D** – A BRAND OF **AIETRADE**

Jokine3D is the flagship brand of AIETrade Private Limited., developed exclusively for the cinema and visual entertainment industry. Under AIETrade's technical leadership and R&D capabilities, Jokine3D has emerged as a globally recognized brand offering DCI-compliant and Walt Disney-approved 3D cinema systems.

Jokine3D is the **ONLY** Indian brand in the 3D cinema industry with certified global recognition, catering to premium clients across Asia, Europe, and the Middle East.

JOKINE3D – CINEMA TECHNOLOGY BRAND OVERVIEW

- Brand Founded: 2010 (Registered in 2014)
- Global Recognition:
- Approved by Walt Disney Studios (since 2017)
- Certified for DCI compliance
- Listed among the top 10 emerging cinema tech brands worldwide

CORE PRODUCTS OF JOKINE3D

Passive 3D Cinema Systems

- Models: *Single-beam, Double-beam, Triple-beam, Big Triple-beam*
- Optical Technologies: *RadiancePrism™, 3D Depth Multiplier™, Fast-Switch Polarization*
- Features: *69% brightness efficiency, Advanced Pop-Out effects, durable 10+ year lifespan*

3D Glasses (Passive & Active)

- Types: Paper, plastic, clip-on, premium polycarbonate, kids' sizes
- *Passive Glasses*: Lightweight, color-neutral, anti-scratch
- *Active Glasses*: Rechargeable, shutter-based

Accessories

- Cleaning kits, UV sterilizers, lens-safe storage trays

TECHNICAL SPECIFICATIONS SUMMARY

Brightness Efficiency: 69%

Switch Speed: <50 microseconds

3D Glasses Life: 400+ reuses

Compatibility: DCI 2K/4K/Laser RGB projectors with 3D compatibility

Mounting Options: Ceiling, projector-mounted, or rack-based

System Uptime: 99.60% (with <0.40% failure rate)

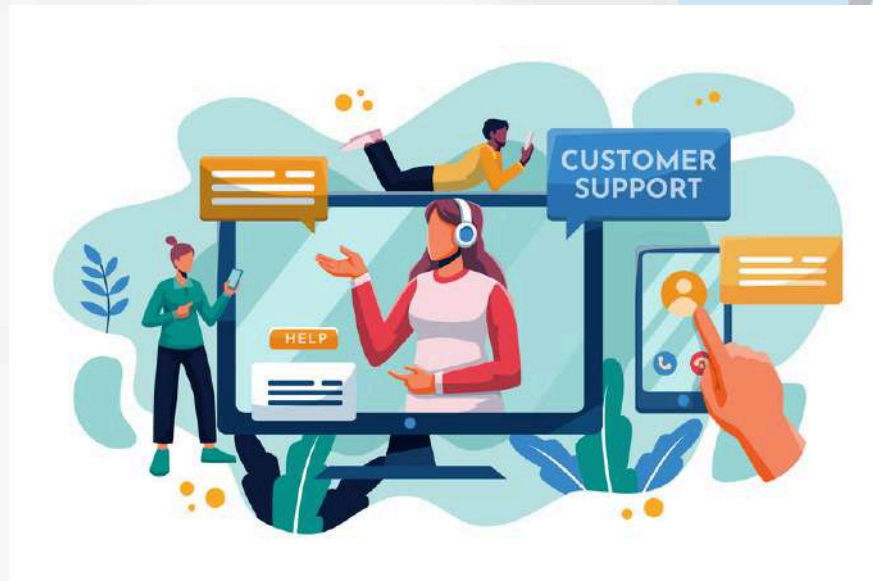

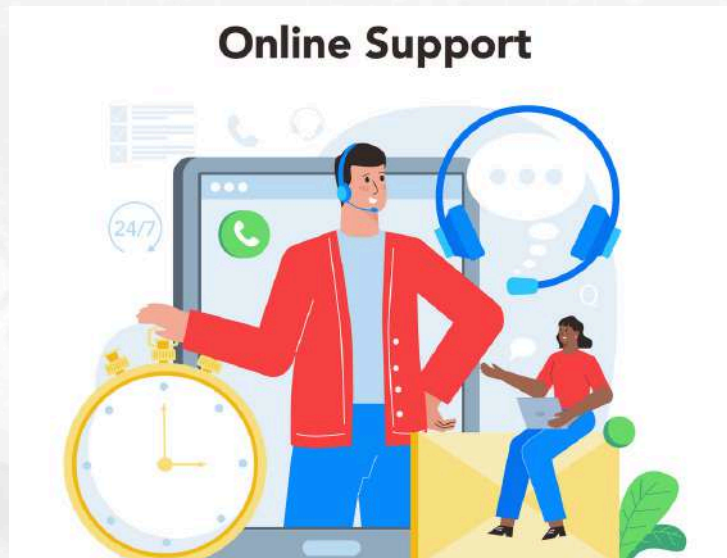

MARKET REACH:

- Installed Screens: 1,945+
- Satisfied Customers: 1,068+
- Recognition: The only Indian 3D brand with certified global presence.

CINEMA CLIENTELE INCLUDE:

Miraj Cinemas, Wave Cinemas, Carnival, Cinemood, NY Films, SVF, Movie Time, Karnival Cinemas, Priya Cinemas, Mukta Arts, and more

AFTER-SALES SUPPORT & GLOBAL SERVICE

Warranty: 5-6 years

Installation Support: Available onsite or remote

Training: Included for cinema staff

Spare Parts Dispatch: Within 2–15 hours

Upgrades: Optional every 3 years

Support: 24×7 via WhatsApp, phone, or email

Coverage: Across Asia, Europe, the Middle East, and Africa

RESEARCH & DEVELOPMENT – THE INNOVATION ENGINE OF JOKINE3D

The in-house R&D division is at the heart of Jokine3D's innovation, ensuring the brand remains globally competitive and technologically advanced. The team comprises engineers, optical physicists, AI experts, and product designers.

Focus Areas:

- Advanced Optics: *RadiancePrism™* 2.0, high-contrast systems, ultra-fast polarization
- Smart Electronics: Auto-switch modules for 2D/3D conversion, inbuilt polarity switching, and robust components for 10+ years of endurance
- Eco-friendly Design: Low maintenance, easy installation, set-and-forget systems
- Customization Tools: Simulation-based planning for complex screen geometries
- Cost Efficiency: Works with most passive 3D lightweight, recyclable glasses

UPCOMING INNOVATIVE PRODUCTS

Jokine3D is preparing to launch cutting-edge products aimed at enhancing viewer experience and operational flexibility:

1. *RadiancePro™* Series – Up to 78% brightness efficiency, ideal for dome screens
2. JokineSmart Glasses – Lightweight passive & active 3D glasses with <1 hour recharge time
3. Auto-Align 3D Mounts – Self-calibrating mounts to reduce setup time by 90%
4. JokineClean Pro – UV-C + ultrasonic disinfection for bulk glasses cleaning
5. Holographic Preview Panels – AI-enabled mini 3D displays for trailers and lobby promotion (in testing phase)

DRIVING STEADY GROWTH FOR THE CINEMA INDUSTRY

Jokine3D is not just a technology vendor but a long-term partner to cinema chains. Its innovations directly address key industry challenges:

- Cost-efficiency: Passive systems with minimal maintenance and low power use
- Audience Retention: Sharp 3D visuals and immersive depth effects
- Upgrade Readiness: Cost-effective retrofit solutions for legacy systems
- Content Flexibility: Support for streaming 3D, virtual concerts, and hybrid formats

By staying aligned with industry trends and technological shifts, *Jokine3D* empowers the cinema industry to grow sustainably, especially in emerging markets.

WHY AIE TRADE & JOKINE3D?

- Only Indian 3D Cinema Brand with Global Recognition
 - Walt Disney & DCI Approval
 - 10+ Years Proven Performance
 - Strong In-house R&D & International Support
 - Trusted by Multiplex Chains, Studios, and Private Cinemas
-

Jokine3D

SINGLE BEAM

JOKINE3D SINGLE BEAM

Experience the Amazing

Optimized High Tech Precision 3D technology.

Guaranteed product durability and exquisite quality, with performance that lasts for more than a decade.

The Only Indian 3DCinema Brand.

Truly an Indian Brand, Jokine3D is renowned Internationally.

After successfully passing rigorous tests in 2017, Jokine3D was awarded the prestigious approved status by Hollywood major Walt Disney, U.S.A.

Top reliability with 99.99% uninterrupted performance over a decade

Only Jokine3D System offers 5 Years of complete Warranty.

Presenting the new 6th Generation model

Featuring a superior polarization filter mirror for high transmission with unique light technology.

Jokine3D delivers exceptional brightness and crisp clarity, offering unmatched value.

JOKINE3D SINGLE BEAM

“JOKINE3D” is one of the Largest and the most renowned manufacturer for Cinema Equipment’s from India.

Jokine3D is also one of the Biggest Exporters for Cinema Equipment's from India to the world, mainly to the far east Asia, Europe, and the Middle East Countries. Established in the year 2010 and duly registered as a Brand since 2014,

“Jokine3D” is now a well renowned International Brand mainly involved into manufacturing of Cinema related Equipment's viz: Active 3D System, Passive 3D System, Active 3D Glasses, Passive 3D Glasses, Home Cinema Systems, Smart Glasses, Smart LCD Panels and Displays.

APPROVAL CERTIFICATIONS

"JOKINE3D" Digital Cinema is approved by the majestic "Hollywood Walt Disney" and is thus DCI Complaint.

We feel delighted to update the entire Cinema industry that your most appreciated product **"JOKINE3D"** has successfully passed the internal test review by the Hollywood Supreme **"The Walt Disney"** and has been included in the Disney approved list from the year 2017.

Thus, **JOKINE3D** brand is now among the few best ones evaluated with **"Walt Disney's" digital 3Dcinema** approved product list.

The magnetism of **JOKINE3D** is remarkable and **JOKINE3D** believes that there will be more opportunities and glory in the cinema industry with the brand being established as one of the favourites among the 3D fraternity.

Reasearch and Development:

With its strong and enabled research and development team backed by solid fundamentals and the spirit of the deep-rooted mindset to change the future into a better world. The expertise team of **"Jokine3D"** is poised to bring in the new generation products to enhance the industry experience and its standards.

Vision

Harnessing the futuristic technology integration into business stream and focusing into development of newly enabled AI products to enhance the entire Cinema Industry to attain its top-class notch. The Owners continuously strive with the goal to endeavour with bringing in the new and innovative products into the market.

with high Brightness

08

Truly an Indian Brand,
Jokine3D is renowned
Internationally.

LEADING FEATURES OF JOKINE3D :

HIGH BRIGHTNESS & FIDELITY:

Delivers high brightness, minimal ghosting, and vibrant, true-to-life colors.

WIDE COMPATIBILITY:

Fully supports all DLP projectors and DCI-compliant digital cinema servers.

PROVEN COMPATIBILITY:

Successfully passed compatibility tests with all mainstream DLP projectors and digital cinema servers, ensuring seamless performance across devices.

HIGH FRAME RATE (HFR) SUPPORT:

Capable of handling a maximum refresh rate of up to 600Hz for smoother, more immersive visuals.

FULLY AUTOMATIC OPERATION:

Features a well-engineered mechanical design for effortless switching between 2D and 3D movies.

COST-EFFECTIVE SOLUTION:

Uses passive polarization 3D glasses, which are affordable, durable, and easy to maintain.

DIVERSE 3D GLASSES OPTIONS:

Offers a variety of 3D glasses styles, including options for children, clip-on designs for Spectacle users, and easy to use paper 3D glasses, catering to diverse viewer needs.

DUAL MAIN BOARD DESIGN:

Ensures high reliability with a meantime between failures (MTBF) of up to 20,000 hours.

The recognition from the market notifies that JOKINE3D Polarized passive System is the only product that provides both high performance with reliability.

JOKINE3D KEY FEATURES:

Full HD Resolution

Active 3D technology ensures each eye receives full HD images, offering unmatched clarity and sharpness compared to any other single beam systems.

SUPERIOR IMAGE QUALITY

WIDER VIEWING ANGLES

BROAD COMPATIBILITY

EASY INSTALLATION AND SCREEN SHIFT FEATURE

LONG LIFE DURABILITY AND WORKING

Exclusive Warranty:

The Jokine3D Passive System comes with a **5-year Exclusive Warranty*** covering all its components and spares.

JOKINE3D is the only brand to offer such a comprehensive 5-year warranty. As a quality-focused, India based brand, we continuously strive for perfection and reliability, delivering exceptional care and warranty protection for all our customers.

The **JOKINE3D** spares and assemblies are manufactured with precision to the highest quality standards. This unmatched quality enables us to confidently provide an exclusive 5-year warranty, setting a new benchmark as a world-class product proudly carrying the "Made in India" tag. With our extensive global service network, Jokine3D ensures prompt assistance, often within few hours.

SALIENT FEATURES

14 YEARS OF DEDICATED SERVICE AND PRODUCT RELIABILITY.

Jokine3D has been delivering reliable service and high-quality performance since 2010, with over 1,945 installations worldwide. Valued customers consistently praise its exceptional effects and reliability.

TOP PERFORMANCE WITH HIGH RELIABILITY

JOKINE3D Polarized 3D System is the only product that provides both high performance and reliability, which is a must in the Cinema Industry.

ADVANCED SINGLE BEAM TECHNOLOGY:

JOKINE3D Single Beam Passive System, uses polarization filter mirror with high transmission and unique light technology. It delivers excellent brightness while requiring only a single projector, achieving a remarkable light transmittance of up to 46%, the highest in its class.

3D OPTIMIZATION

JOKINE3D* FILTER automatic image calibration and optimization technology with image segmentation and seamless splicing realizes lowest ghost and highest image resolution for an exceptional viewing experience.

SINGLE BEAM 3D SYSTEM OVERVIEW

INDIA'S PIONEER 3D BRAND

JOKINE3D Passive system is the 1st and the Only Indian Brand.

Jokine3D high tech precision technology is one of the finest. Using only high-quality spares and components assures longtime reliability, while delivering stunning theatrical Pop out and excellent in-Depth effects to its viewers.

SYSTEM COMPONENTS

Includes a 3D control polarizer modulator control unit, a 3D optical filter glass polarizer with advanced inter-change liquid crystal polarizing technology, Superior Technology RadiancePrism* inside for high Brightness and Crisp Clarity. A fully automatic motorized 2D / 3D converter, wire connectors and all necessary mountings and fittings.

EFFICIENT AND COST-EFFECTIVE DESIGN:

Operates seamlessly with single DLP digital 3Dcinema projector, with light and affordable polarized passive 3D glasses, which ensures vivid and immersive 3D visuals.

SUPERIOR POLARIZATION TECHNOLOGY

Jokine3D's Superior polarization filter mirror with high transmission and unique light technology. which ensures maximum transfer of projector brightness on to the screen, with crisp clarity for you to experience a true JOKINE3D digital cinema experience.

HOW IT WORKS?

The Jokine3D optical glass polarizer is mounted in front of the projector lens and connected to a DCI-compliant digital 2K projector. When a 3D movie plays, the control box manages the optical filter, alternating polarization directions to produce left and right images on a high gain 3D white or silver screen. Viewers wearing polarized passive 3D glasses experience vibrant, lifelike motion pictures with stunning clarity in 3D.

INNOVATIVE FEATURES

FASTEST POLARIZATION SWITCH:

Newly patented technology makes JOKINE3D System one of the world's fastest polarization switch for 3D digital cinema. With a powered, symmetrical 50 microseconds switching time between the eyes, Polarized 3D System easily ensures brightness, low-crosstalk operation even at 3D HFR (high frame rate) targets of 24 FPS, 48 FPS.

EXCEPTIONAL 3D EXPERIENCE

Paired with a high-gain 3D White or silver screen and digital cinema projectors up to 35K lumens, the Jokine3D Polarized Passive System delivers spectacular 3D visuals on screens up to 37 meters wide, using inexpensive passive circular polarized 3D glasses.

INDUSTRY RECOGNITION :

After rigorous testing in 2017, Jokine3D earned the prestigious "Approved" status from Hollywood's Walt Disney U.S.A., cementing its reputation for quality and innovation.

JOKINE3D SINGLE BEAM - SPECIFICATION

MODEL:	JOKINE3D SINGLE BEAM
Applied Projector	DLP Projector, DCI Projector
Applied Server	Digital Cinema Server Certified by DCI
Applied Screen	Silver Screen 86 ft width
Screen Gain	Reflective Screen / Silver Screen with Gain 1.8 to 4.4
Storage Temperature	-10 to 60°C
Working Temperature	0-50° Cent
Image Conversion Machine	Size; 220 x 190 x 20 mm
3D Model Color	Black

MODEL:

POLARIZED TYPE:	CIRCULAR POLARIZED
Work Frequency	96-600Hz support the mainstream 24frame, 48frame and also 60frame rate movies
Optical Light Transmittance:	46 % (-, + 1%)
High Light Efficiency Factor (LEF):	19 % (-, + 1%)
Maximum Lamp Power:	35000 Lumens
HRF	Up to 240Hz
Projector Lens:	The Diameter <150mm
Projection Throw Ratio:	>1.0
Dark Time:	450 us
Delay Time:	0 us
Stereoscopic Contrast:	150:1
Polarization Degree:	Real D
High Contrast	150:1
Ghost (Cross Talk):	<0.50%

****Light Transmittance 46%***

****High Light Efficiency value 19%***

REQUIREMENT

INSTALLATION REQUIREMENTS

- Projection Lens to Jokine3D Lens Distance: 5-15mm
- 3D High Gain Screen works with 3D White screen / 3D Silver screen.
- Projection Window Glass: USE OPTICAL GLASS ONLY WITH HIGH TRANSMISSION
(Do not use toughened glass or polarizing glass)
- Projection Window: > Min ;300X300mm
- Distance between Projector Lens to Wall / Projection Window: Min 500mm

WORKING ENVIRONMENT:

- Operating Temperature: +10°C to 50°C
- Storage Temperature: -5°C to +50°C
- Relative Humidity: 20% to 50%

WORKING PARAMETERS:

- Power Input: 100-240VAC50/60Hz
- Power Output: DC24V, 2.5A
- Projector with SYNC Signal Output: GPIO (37Pin) or 3D Interface(15Pin)

PROJECTOR COMPATIBILITY:

- Works with all 3D Enabled Projectors like Christie, Barco, NEC also other 3D Enabled Projectors, DCI Approved.
- Also works with non-DCI DLP 3D enabled Projectors like Epson, ViewSonic, Benq, Optoma etc.

SUPPORT

Over the past 14 years, with more than 1,945 installations worldwide, Jokine3D systems have demonstrated remarkable reliability, with only 0.1% of reported malfunctions. This remarkable performance reflects the exceptional quality standards we maintain at all times.

While our system is highly reliable, however, as with any electronic or automated device, occasional assistance may be required. Before contacting us for support, we kindly request that you ensure the following steps before reaching out to us.

1. Verify that the power adapter plug is connected properly according to the installation guidelines.

2. Ensure that the power switch is turned on and functioning correctly.

- 3. First Check:**

Ensure the LED on the power adaptor glows bright red or green. This indicates that electricity is reaching the adaptor, and it is functioning properly. If the LED is not glowing, recheck Steps 1 and 2.

4. Verify that power is being supplied to the modulator control unit and that the modulator unit is switched on as per the installation instructions.

- 5. Second Check:**

Ensure the Power LED on the modulator unit glows bright red. This confirms that the wires and power supply to the modulator unit are functioning correctly. If the LED does not glow, recheck Step 3.

6. Connect the wires from the modulator control unit to the projector, second to the 3D filter polarizer and third to the Automatic Motor Shaft according to the installation guidelines.

SUPPORT

7. Third Check:

Ensure the Sync LED on the modulator unit glows Yellow. This confirms that power and functionality are intact up to the polarizer filter and the automatic motor shaft. If the LED does not glow, review Step 6 and ensure proper connections as per installation instructions.

8. If the automatic shaft fails to perform during installation, there may be an issue with the channel or projector settings. Configure these settings correctly.

Once the system begins functioning automatically, it can be considered that the system installation has been done properly and now your Jokine3D system is configured with the projector.

9. If the system is correctly configured and functioning automatically but the 3D images appear unclear (e.g., double or ghost images), locate the small switch labeled "L/R" on the modulator unit. Toggle this switch to adjust the settings and achieve clear, stunning, and exclusive 3D effects. This will ensure compatibility with your passive Jokine 3D glasses.

10. If all three checks are functional but there is still an issue, it could be with the 3D optical filter polarizer, and / or the 3D modulator unit, and / or the automatic motor shaft and / or the connecting wires. Since your system is under a complete 5-year warranty, simply contact us, and we will address the issue promptly.

JOKINE3D PASSIVE SYSTEM (SINGLE BEAM)

JOKINE3D: The Leader in Passive 3D Technology

JOKINE3D delivers all three premier passive 3D effects: In-depth, Onscreen, and Pop-out, providing an unparalleled viewing experience for cinema audiences.

The latest JOKINE3D system represents the 6th generation of cutting-edge technology. Designed for ease of use and portability, it offers effortless installation by even an amateur apprentice in just 20 minutes. The system's versatility allows it to be relocated to an adjacent 3D screen within minutes, enabling seamless transitions for playing additional 3D movies. With only two connecting wires, it integrates with your digital DCI projector in less than a minute, ensuring a hassle-free setup and configuration.

We take pride in offering numerous client references for assessing our product quality, along with opportunities for onsite visual demonstration

Unmatched Pop-out Effects

The Jokine3D Pop-out Effect creates a stunning visual impact, projecting imagery beyond the screen and immersing the audience like never before. This standout feature is a rarity among other 3D systems currently available in the market.

A Benchmark in High Brightness with Quality Effects

JOKINE3D stands out as a leader in its category, unmatched in brightness and pop-out effects. No other passive 3D brand offers the same level of performance, making JOKINE3D the ultimate choice for theatres prioritizing high-quality 3D visuals.

3D OPTIMIZATION

JOKINE3D* FILTER automatic image calibration and optimization technology with image segmentation and seamless splicing realizes lowest ghost and highest image resolution for an exceptional viewing experience.

Delivers High Brightness and Crisp Clarity

TRIPLE BEAM 3D SYSTEM OVERVIEW

INDIA'S PIONEER 3D BRAND

JOKINE3D Passive system is the 1st and the Only Indian Brand.

Jokine3D high tech precision technology is one of the finest. Using only high-quality spares and components assures longtime reliability, while delivering stunning theatrical Pop out and excellent in-Depth effects to its viewers.

SYSTEM COMPONENTS

Includes a 3D control polarizer modulator control unit, a 3D optical filter glass polarizer with advanced inter-change liquid crystal polarizing technology, Superior Technology RadiancePrism* inside for high Brightness and Crisp Clarity. A fully automatic motorized 2D / 3D converter, wire connectors and all necessary mountings and fittings.

EFFICIENT AND COST-EFFECTIVE DESIGN:

Operates seamlessly with single DLP digital 3Dcinema projector, with light and affordable polarized passive 3D glasses, which ensures vivid and immersive 3D visuals.

SUPERIOR POLARIZATION TECHNOLOGY

Jokine3D's Superior polarization filter mirror with high transmission and unique light technology. which ensures maximum transfer of projector brightness on to the screen, with crisp clarity for you to experience a true JOKINE3D digital cinema experience.

HOW IT WORKS?

The Jokine3D optical glass polarizer is mounted in front of the projector lens and connected to a DCI-compliant digital 2K projector. When a 3D movie plays, the control box manages the optical filter, alternating polarization directions to produce left and right images on a high gain 3D white or silver screen. Viewers wearing polarized passive 3D glasses experience vibrant, lifelike motion pictures with stunning clarity in 3D.

INNOVATIVE FEATURES

FASTEST POLARIZATION SWITCH:

Newly patented technology makes JOKINE3D System one of the world's fastest polarization switch for 3D digital cinema. With a powered, symmetrical 50 microseconds switching time between the eyes, Polarized 3D System easily ensures brightness, low-crosstalk operation even at 3D HFR (high frame rate) targets of 24 FPS, 48 FPS.

EXCEPTIONAL 3D EXPERIENCE

Paired with a high-gain 3D White or silver screen and digital cinema projectors up to 35K lumens, the Jokine3D Polarized Passive System delivers spectacular 3D visuals on screens up to 28 meters wide, using inexpensive passive circular polarized 3D glasses.

INDUSTRY RECOGNITION:

After rigorous testing in 2017, Jokine3D earned the prestigious "Approved" status from Hollywood's Walt Disney U.S.A., cementing its reputation for quality and innovation.

SPECIFICATION

MODEL:	JOKINE3D TRIPPLE BEAM
Applied Projector	DLP Projector, DCI Projector
Applied Server	Digital Cinema Server Certified by DCI
Applied Screen	Silver Screen 86 ft width
Screen Gain	Reflective Screen / Silver Screen with Gain 1.8 to 4.4
Storage Temperature	-10 to 60°Cent
Working Temperature	0-50° Cent
Image Conversion Machine	Size; 260 x 245 x 125 mm
3D Model Color	Black

MODEL:

POLARIZED TYPE:	CIRCULAR POLARIZED
Work Frequency	96-600Hz support the mainstream 24frame, 48frame and also 60frame rate movies
Optical Light Transmittance:	69 % (-, + 1%)
High Light Efficiency Factor (LEF):	31 % (-, + 1%)
Maximum Lamp Power:	35000 Lumens
HRF	Up to 240Hz
Projector Lens:	The Diameter <150mm
Projection Throw Ratio:	>1.0
Dark Time:	450 us
Delay Time:	0 us
Stereoscopic Contrast:	150:1
Polarization Degree:	Real D
High Contrast	150:1
Ghost (Cross Talk):	<0.50%

****Light Transmittance 69%*******High Light Efficiency value 31%***

REQUIREMENT

INSTALLATION REQUIREMENTS

- Projection Lens to Jokine3D Lens Distance: 3 – 10 mm
- 3D High Gain Screen works with 3D White screen / 3D Silver screen.
- Projection Window Glass: USE OPTICAL GLASS ONLY WITH HIGH TRANSMISSION
(Do not use toughened glass or polarizing glass)
- Projection Window: > Min; 500X500mm
- Distance between Projector Lens to Wall / Projection Window: Min 500mm

WORKING ENVIRONMENT:

- Operating Temperature: +10°C to 50°C
- Storage Temperature: -5°C to +50°C
- Relative Humidity: 20% to 50%

WORKING PARAMETERS:

- Power Input: 100-240VAC50/60Hz
- Power Output: DC24V, 2.5A
- Projector with SYNC Signal Output: GPIO (37Pin) or 3D Interface(15Pin)

PROJECTOR COMPATIBILITY:

- Works with all 3D Enabled Projectors like Christie, Barco, NEC also other 3D Enabled Projectors, DCI Approved.
- Also works with non-DCI DLP 3D enabled Projectors like Epson, ViewSonic, Benq, Optoma etc.

SUPPORT

Over the past 14 years, with more than 1,945 installations worldwide, Jokine3D systems have demonstrated remarkable reliability, with only 0.1% of reported malfunctions. This remarkable performance reflects the exceptional quality standards we maintain at all times.

While our system is highly reliable, however, as with any electronic or automated device, occasional assistance may be required. Before contacting us for support, we kindly request that you ensure the following steps before reaching out to us.

1. Verify that the power adapter plug is connected properly according to the installation guidelines.

2. Ensure that the power switch is turned on and functioning correctly.

- 3. First Check:**

Ensure the LED on the power adaptor glows bright red or green. This indicates that electricity is reaching the adaptor, and it is functioning properly. If the LED is not glowing, recheck **Steps 1 and 2**.

4. Verify that power is being supplied to the modulator control unit and that the modulator unit is switched on as per the installation instructions.

- 5. Second Check:**

Ensure the Power LED on the modulator unit glows bright red. This confirms that the wires and power supply to the modulator unit are functioning correctly. If the LED does not glow, recheck **Step 3**.

6. Connect the wires from the modulator control unit to the projector, second to the 3D filter polarizer and third to the Automatic Motor Shaft according to the installation guidelines.

SUPPORT

7. Third Check:

Ensure the Sync LED on the modulator unit glows Yellow. This confirms that power and functionality are intact up to the polarizer filter and the automatic motor shaft.

If the LED does not glow, review **Step 6** and ensure proper connections as per installation instructions.

8. If the automatic shaft fails to perform during installation, there may be an issue with the channel or projector settings. Configure these settings correctly.

Once the system begins functioning automatically, it can be considered that the system installation has been done properly and now your Jokine3D system is configured with the projector.

9. If the system is correctly configured and functioning automatically but the 3D images appear unclear (e.g., double or ghost images), locate the small switch labeled "L/R" on the modulator unit. Toggle this switch to adjust the settings and achieve clear, stunning, and exclusive 3D effects. This will ensure compatibility with your passive Jokine3D glasses.

10. If all three checks are functional but there is still an issue, it could be with the 3D optical filter polarizer, and / or the 3D modulator unit, and / or the automatic motor shaft and / or the connecting wires. Since your system is under a complete 5-year warranty, simply contact us, and we will address the issue promptly.

JOKINE3D PASSIVE SYSTEM

Only Jokine3D specializes in this exceptional 3D system, designed exclusively for premium 3D entertainment on big screens.

The Triple Beam JOKINE3D System

The 6th-generation, fully automatic Triple Beam JOKINE3D system is engineered for superior light efficiency and integrates effortlessly with digital DCI projectors to provide optimal performance.

Models Available:

- JOKINE3D Triple Beam Qx & Q5
- Powered by RadiancePrism Superior Technology*
- Offers High Brightness and Crisp Clarity

Key Features

- **Compatibility:**
Ideal for standard screen sizes upto 86 ft width.
- **Pop-out Effect:**
Projects visuals beyond the screen, creating a stunning audience experience that only the top-quality systems can match.

Why JOKINE3D?

JOKINE3D stands out as a leader in passive 3D technology, unmatched in:

- **Brightness and Clarity:**
Delivering unparalleled visual quality.
- **Exclusive Pop-out Effects:**
A feature distinctively absent in most other systems.

JOKINE3D PASSIVE SYSTEM

Customer Assurance

- **Onsite Demonstrations:**

Evaluate our product's quality through live visual inspections.

- **Trusted by Clients:**

Contact us for references and check with our valuable clients directly to know why JOKINE3D is a preferred choice.

No other passive 3D brand offers the same level of performance, making JOKINE3D the ultimate choice for cinemas aiming to elevate their audience's 3D experience.

Exclusive Warranty:

The Jokine3D Passive System comes with a 5-year Exclusive Warranty* covering all its components and spares.

JOKINE3D is the only brand to offer such a comprehensive 5-year warranty. As a quality-focused, India based brand, we continuously strive for perfection and reliability, delivering exceptional care and warranty protection for all our customers.

The JOKINE3D spares and assemblies are manufactured with precision to the highest quality standards. This unmatched quality enables us to confidently provide an exclusive 5-year warranty, setting a new benchmark as a world-class product proudly carrying the "Made in India" tag. With our extensive global service network, Jokine3D ensures prompt assistance, often within few hours.

SUPERIOR TECHNOLOGY RADIANCE PRISM

The Jokine3D Triple Beam sets a new standard for the true cinematic 3D viewing with its revolutionary Superior Technology Radiance Prism. This cutting-edge innovation enhances the visual experience, delivering unmatched brilliance and dynamic brightness for a blockbuster movie, a VFX experience, or a high-impact animation media.

Key Features

1. Triple Beam Design with Radiance Prism Enhancement

- **Enhanced Brightness and Clarity:**

The Triple Beam system, powered by the Radiance Prism, emits triple beams of light. This design ensures intense brightness, superior clarity, and vibrant colors.

- **Components:**

- Radiance Prism: Custom-designed to enhance three beams of light for naturalistic, bright visuals.
- Triple Beam Lens: Separately polarizes individual three distinct images, and then aligns them to produce brighter single 3D image.

2. Exclusive Radiance Prism Technology

- **Core Functionality:**

At the heart of the model lies the Radiance Prism, an advanced component that enhances light brightness. This technology creates vibrant, dynamic brightness with retention of color and its contrast ratio, for a true cinematic experience.

Avoid the Risk of Compromised Performance

Visualize this stage:

Your Theater is fully booked, alive with enthralling audience in anticipation for a breathtaking 3D experience. However, an unreliable 3D fails to deliver, leaving your audience disappointed and your reputation at stake.

This scenario underscores the importance of investing in a high-performing 3D system that consistently exceeds expectations. Jokine3D is engineered to perform flawlessly every time for a decade and beyond.

WHY CHOOSE?

Why Choose the Jokine3D Triple Beam with Radiance Prism for Your Theater?

This model is designed for professional Cinema Venues who demand nothing less than the best. Whether it's a blockbuster movie, a VFX experience, or a high-impact animation, the Jokine3D Triple Beam delivers unmatched quality, adaptability, and amazing cinematic experience.

The Jokine3D Triple Beam is a 3D masterpiece.

Choose Excellence. Choose Jokine3D

When your audience demands perfection, the Jokine3D Triple Beam with **Radiance Prism** guarantees a superior immersive cinematic experience along with a pop out effect no other system can match

Reliable dependability with Jokine3D

The Jokine3D Triple Beam precision engineering ensures 100% reliability, even under demanding conditions. Its robust design and superior technology deliver consistent, flawless performance, making it the most dependable choice for any theater.

5-Year Complete Warranty

- **Peace of Mind:**

Unlike other alternatives, only Jokine3D offers a comprehensive 5-year warranty that covers the entire system. This unparalleled warranty reflects our confidence in the product's durability and performance.

- **Uninterrupted Operations:**

With the backing of our warranty, you can operate with full confidence, knowing your system is protected against unforeseen issues.

WHY CHOOSE?

Designed for Dependability

1. Consistent Performance

- Advanced technology ensures stunning visuals, immersive 3D effects, and smooth operation—regardless of the number of shows.
- Built to handle peak demand without overheating or performance degradation.

2. Future-Proof Technology

- The Radiance Prism and Triple Beam lens are designed to integrate seamlessly with evolving cinema technologies, keeping your investment relevant for years to come.

3. Audience Satisfaction

- A flawless 3D experience creates happy audiences, fostering loyalty, repeat visits, and positive word-of-mouth for your theater.

Choose Excellence. Choose Jokine3D.

Don't leave your reputation to chance with inferior equipment. Invest in a system that matches your commitment to quality—choose Jokine3D.

TRIPLE BEAM QX & Q5

Jokine3D[®]

BIG TRIPLE BEAM

YX & Y5

DISNEY APPROVED, DCI COMPLIANT

Experience the Amazing

OPTIMIZED HIGH-TECH PRECISION 3D TECHNOLOGY.

Presenting the new 6th Generation model:

KEY VALUES:

Featuring a superior polarization filter mirror for high transmission with unique light technology.

With Superior Technology **Radiance Prism*** inside.

Jokine3D delivers exceptional brightness and crisp clarity, offering unmatched value

Top reliability with 99.99% uninterrupted performance over a decade

Only Jokine3D System offers 5 Years of complete Warranty.

After successfully passing rigorous tests in 2017, Jokine3D was awarded the prestigious approved status by Hollywood major Walt Disney, U.S.A.

SIGNIFICANT ASPECTS:

The Only Indian 3DCinema Brand.

Truly an Indian Brand, Jokine3D is renowned Internationally.

Guaranteed product durability and exquisite quality, with performance that lasts for more than a decade.

“JOKINE3D” is one of the Largest and the most renowned manufacturer for Cinema Equipment’s from India.

Jokine3D is also one of the Biggest Exporters for Cinema Equipment's from India to the world, mainly to the far east Asia, Europe, and the Middle East Countries. Established in the year 2010 and duly registered as a Brand since 2014.

“Jokine3D” is now a well renowned International Brand mainly involved into manufacturing of Cinema related Equipment's viz: Active 3D System, Passive 3D System, Active 3D Glasses, Passive 3D Glasses, Home Cinema Systems, Smart Glasses, Smart LCD Panels and Displays.

APPROVAL CERTIFICATIONS

"JOKINE3D" Digital Cinema is approved by the majestic "Hollywood Walt Disney" and is thus DCI Complaint.

We feel delighted to update the entire Cinema industry that your most appreciated product **"JOKINE3D"** has successfully passed the internal test review by the Hollywood Supreme **"The Walt Disney"** and has been included in the Disney approved list from the year 2017.

Thus, **JOKINE3D** brand is now among the few best ones evaluated with **"Walt Disney's"** digital 3Dcinema approved product list.

The magnetism of JOKINE3D is remarkable and JOKINE3D believes that there will be more opportunities and glory in the cinema industry with the brand being established as one of the favourites among the 3D fraternity.

Reasearch and Development:

With its strong and enabled research and development team backed by solid fundamentals and the spirit of the deep-rooted mindset to change the future into a better world. The expertise team of **"Jokine3D"** is poised to bring in the new generation products to enhance the industry experience and its standards.

Vision

Harnessing the futuristic technology integration into business stream and focusing into development of newly enabled AI products to enhance the entire Cinema Industry to attain its top-class notch. The Owners continuously strive with the goal to endeavour with bringing in the new and innovative products into the market.

Notable Achievements

(U.S.A) Hollywood Walt Disney Tested & Approved*

The Only Indian 3DCinema Brand.

Truly an Indian Brand, Jokine3D is renowned Internationally.

LEADING FEATURES OF JOKINE3D :

HIGH BRIGHTNESS & FIDELITY:

Delivers high brightness, minimal ghosting, and vibrant, true-to-life colors.

WIDE COMPATIBILITY:

Fully supports all DLP projectors and DCI-compliant digital cinema servers.

PROVEN COMPATIBILITY:

Successfully passed compatibility tests with all mainstream DLP projectors and digital cinema servers, ensuring seamless performance across devices.

HIGH FRAME RATE (HFR) SUPPORT:

Capable of handling a maximum refresh rate of up to 600Hz for smoother, more immersive visuals.

FULLY AUTOMATIC OPERATION:

Features a well-engineered mechanical design for effortless switching between 2D and 3D movies.

COST-EFFECTIVE SOLUTION:

Uses passive polarization 3D glasses, which are affordable, durable, and easy to maintain.

*With Superior Technology
RadiancePrism* inside.*

*Specially made for the Big
Screen & Larger Throw
Distances.*

DUAL MAIN BOARD DESIGN:

Ensures high reliability with a meantime between failures (MTBF) of up to 20,000 hours.

JOKINE3D KEY FEATURES:

Full HD Resolution

Active 3D technology ensures each eye receives full HD images, offering unmatched clarity and sharpness compared to any other Big Triple beam systems.

SUPERIOR IMAGE QUALITY

WIDER VIEWING ANGLES

EASY INSTALLATION AND SCREEN SHIFT FEATURE

BROAD COMPATIBILITY

LONG LIFE DURABILITY AND WORKING

SALIENT FEATURES

14 YEARS OF DEDICATED SERVICE AND PRODUCT RELIABILITY.

Jokine3D has been delivering reliable service and high-quality performance since 2010, with over 1,945 installations worldwide. Valued customers consistently praise its exceptional effects and reliability.

TOP PERFORMANCE WITH HIGH RELIABILITY

JOKINE3D Polarized 3D System is the only product that provides both high performance and reliability, which is a must in the Cinema Industry.

ADVANCED BIG TRIPLE-BEAM TECHNOLOGY:

JOKINE3D Big Tripple Beam Passive System, uses polarization filter mirror with high transmission and unique light technology. It delivers excellent brightness while requiring only a single projector, achieving a remarkable light transmittance of up to 69%, the highest in its class.

3D OPTIMIZATION

JOKINE3D* FILTER automatic image calibration and optimization technology with image segmentation and seamless splicing realizes lowest ghost and highest image resolution for an exceptional viewing experience.

Delivers High Brightness and Crisp Clarity

BIG TRIPLE BEAM 3D SYSTEM OVERVIEW

INDIA'S PIONEER 3D BRAND

JOKINE3D Passive system is the 1st and the Only Indian Brand.

Jokine3D high tech precision technology is one of the finest. Using only high-quality spares and components assures longtime reliability, while delivering stunning theatrical Pop out and excellent in-Depth effects to its viewers.

SUPERIOR POLARIZATION TECHNOLOGY

Jokine3D's Superior polarization filter mirror with high transmission and unique light technology. which ensures maximum transfer of projector brightness on to the screen, with crisp clarity for you to experience a true JOKINE3D digital cinema experience.

EFFICIENT AND COST-EFFECTIVE DESIGN:

Operates seamlessly with single DLP digital 3Dcinema projector, with light and affordable polarized passive 3D glasses, which ensures vivid and immersive 3D visuals.

SYSTEM COMPONENTS

Includes a 3D control polarizer modulator control unit, a 3D optical filter glass polarizer with advanced inter change liquid crystal polarizing technology, Superior Technology RadiancePrism* inside for high Brightness and Crisp Clarity. A fully automatic motorized 2D / 3D converter, wire connectors and all necessary mountings and fittings.

HOW IT WORKS?

The Jokine3D optical glass polarizer is mounted in front of the projector lens and connected to a DCI-compliant digital 2K projector. When a 3D movie plays, the control box manages the optical filter, alternating polarization directions to produce left and right images on a high gain 3D white or silver screen. Viewers wearing polarized passive 3D glasses experience vibrant, lifelike motion pictures with stunning clarity in 3D.

INNOVATIVE FEATURES

FASTEST POLARIZATION SWITCH:

Newly patented technology makes JOKINE3D System one of the world's fastest polarization switch for 3D digital cinema. With a powered, symmetrical 50 microseconds switching time between the eyes, Polarized 3D System easily ensures brightness, low-crosstalk operation even at 3D HFR (high frame rate) targets of 24 FPS, 48 FPS.

EXCEPTIONAL 3D EXPERIENCE

Paired with a high-gain 3D White or silver screen and digital cinema projectors up to 35K lumens, the Jokine3D Polarized Passive System delivers spectacular 3D visuals on screens up to 37 meters wide, using inexpensive passive circular polarized 3D glasses.

INDUSTRY RECOGNITION:

After rigorous testing in 2017, Jokine3D earned the prestigious "Approved" status from Hollywood's Walt Disney U.S.A., cementing its reputation for quality and innovation.

SPECIFICATION

MODEL:	JOKINE3D BIG TRIPPLE BEAM
Applied Projector	DLP Projector, DCI Projector
Applied Server	Digital Cinema Server Certified by DCI
Applied Screen	Silver Screen 85 ft –120 ft width
Screen Gain	Reflective Screen / Silver Screen with Gain 1.8 to 4.4
Storage Temperature	-10 to 60°Cent
Working Temperature	0-50° Cent
Image Conversion Machine	Size; 340 x 280 x 100 mm
3D Model Color	Black

MODEL:

POLARIZED TYPE:	CIRCULAR POLARIZED
Work Frequency	96-600Hz support the mainstream 24frame, 48frame and also 60frame rate movies
Optical Light Transmittance:	69 % (-, + 1%)
High Light Efficiency Factor (LEF):	37 % (-, + 1%)
Maximum Lamp Power:	35000 Lumens
HRF	Up to 240Hz
Projector Lens:	The Diameter <150mm
Projection Throw Ratio:	>1.0
Dark Time:	450 us
Delay Time:	0 us
Stereoscopic Contrast:	150:1
Polarization Degree:	Real D
High Contrast	150:1
Ghost (Cross Talk):	<0.50%

Light Transmittance 69%**High Light Efficiency value 37%**

REQUIREMENT

INSTALLATION REQUIREMENTS

- Projection Lens to Jokine3D Lens Distance: 3 – 10 mm
- 3D High Gain Screen works with 3D White screen / 3D Silver screen.
- Projection Window Glass: USE OPTICAL GLASS ONLY WITH HIGH TRANSMISSION
(Do not use toughened glass or polarizing glass)
- Projection Window: > Min; 500X500mm
- Distance between Projector Lens to Wall / Projection Window: Min 500mm

WORKING ENVIRONMENT:

- Operating Temperature: +10°C to 50°C
- Storage Temperature: -5°C to +50°C
- Relative Humidity: 20% to 50%

WORKING PARAMETERS:

- Power Input: 100-240VAC50/60Hz
- Power Output: DC24V, 2.5A
- Projector with SYNC Signal Output: GPIO (37Pin) or 3D Interface(15Pin)

PROJECTOR COMPATIBILITY:

- Works with all 3D Enabled Projectors like Christie, Barco, NEC also other 3D Enabled Projectors, DCI Approved.
- Also works with non-DCI DLP 3D enabled Projectors like Epson, ViewSonic, Benq, Optoma etc.

SUPPORT

Over the past 14 years, with more than 1,945 installations worldwide, Jokine3D systems have demonstrated remarkable reliability, with only 0.1% of reported malfunctions. This remarkable performance reflects the exceptional quality standards we maintain at all times.

While our system is highly reliable, however, as with any electronic or automated device, occasional assistance may be required. Before contacting us for support, we kindly request that you ensure the following steps before reaching out to us

1. Verify that the power adapter plug is connected properly according to the installation guidelines.

2. Ensure that the power switch is turned on and functioning correctly.

- 3. First Check:**

Ensure the LED on the power adaptor glows bright red or green. This indicates that electricity is reaching the adaptor, and it is functioning properly. If the LED is not glowing, recheck **Steps 1 and 2**.

4. Verify that power is being supplied to the modulator control unit and that the modulator unit is switched on as per the installation instructions.

- 5. Second Check:**

Ensure the Power LED on the modulator unit glows bright red. This confirms that the wires and power supply to the modulator unit are functioning correctly. If the LED does not glow, recheck **Step 3**.

6. Connect the wires from the modulator control unit to the projector, second to the 3D filter polarizer and third to the Automatic Motor Shaft according to the installation guidelines.

SUPPORT

7. Third Check:

Ensure the Sync LED on the modulator unit glows Yellow. This confirms that power and functionality are intact up to the polarizer filter and the automatic motor shaft.

If the LED does not glow, review **Step 6** and ensure proper connections as per installation instructions.

8. If the automatic shaft fails to perform during installation, there may be an issue with the channel or projector settings. Configure these settings correctly.

Once the system begins functioning automatically, it can be considered that the system installation has been done properly and now your Jokine3D system is configured with the projector.

9. If the system is correctly configured and functioning automatically but the 3D images appear unclear (e.g., double or ghost images), locate the small switch labeled "L/R" on the modulator unit. Toggle this switch to adjust the settings and achieve clear, stunning, and exclusive 3D effects. This will ensure compatibility with your passive Jokine3D glasses.

10. If all three checks are functional but there is still an issue, it could be with the 3D optical filter polarizer, and / or the 3D modulator unit, and / or the automatic motor shaft and / or the connecting wires. Since your system is under a complete 5-year warranty, simply contact us, and we will address the issue promptly

FLAGSHIP 3D MODEL

*The **Jokine3D Big Triple Beam Flagship Model** is specifically designed to set a new standard for Big Venue Cinemas with long through distance and Big Screens. Built with cutting-edge technology and user-focused design, this model is engineered for Big Screen professional-grade applications in 3D Cinema viewing.*

Big Triple Beam Design with Radiance Prism Enhancement

- **Big Triple Beam Design**
 - The flagship signature model includes three big dynamic beams seamlessly integrated into the model's structure. These beams can function as additional light multiplier. To ensure visual fidelity on even the largest cinema screens.
- **Components**
 - Radiance Prism: Custom-designed to enhance three beams of light for naturalistic, bright visuals.
 - Big Triple Beam Lens: Separately polarizes individual three distinct images, and then aligns them to produce brighter single 3D image.

- **Exclusive Radiance Prism Technology**

Core Functionality: At the heart of the model lies the Radiance Prism, an advanced component that enhances light brightness. This technology creates vibrant, dynamic brightness with retention of color and its contrast ratio, for a true cinematic experience.

Models Available:

- JOKINE3D Triple Beam Yx & Y5
- Powered by RadiancePrism Superior Technology*
- High Brightness and Crisp Clarity

Specially made for Big Screens:

- Designed specifically for very large screen sizes
- Optimized for extended throw distances

FLAGSHIP 3D MODEL

Experience Excellence

- **Pop-out Visuals:**

A cutting-edge feature that projects imagery beyond the screen, creating a breathtaking Pop out experience. Only a few systems in the market can match this effect.

- **Premium Quality:**

JOKINE3D leads the market in brightness and immersive effects, making it the top choice for premium 3D entertainment.

Customer Assurance

- **Evaluate Before You Commit:**

Contact us for client references to verify the quality of our products.

- **Onsite Inspections Available:**

Arrange a visual demonstration to experience JOKINE3D's superior performance firsthand.

When it comes to delivering Pop out and immersive, high-quality 3D experiences on big screens, no other passive 3D system matches the capabilities of JOKINE3D Big Tripple Beam.

Exclusive Warranty:

The Jokine3D Passive System comes with a 5-year Exclusive Warranty* covering all its components and spares.

JOKINE3D is the only brand to offer such a comprehensive 5-year warranty. As a quality-focused, India based brand, we continuously strive for perfection and reliability, delivering exceptional care and warranty protection for all our customers.

The JOKINE3D spares and assemblies are manufactured with precision to the highest quality standards. This unmatched quality enables us to confidently provide an exclusive 5-year warranty, setting a new benchmark as a world-class product proudly carrying the "Made in India" tag. With our extensive global service network, Jokine3D ensures prompt assistance, often within few hours.

SUPERIOR TECHNOLOGY RADIANCE PRISM

Avoid the Risk of Compromised Performance

Visualize this stage:

Your theater is fully booked, alive with enthralling audience in anticipation for a breathtaking 3D experience. However, an unreliable 3D fails to deliver, leaving your audience disappointed and your reputation at stake.

This scenario underscores the importance of investing in a high-performing 3D system that consistently exceeds expectations. Jokine3D is engineered to perform flawlessly every time for a decade and beyond.

WHY CHOOSE?

Why Choose the Jokine3D Big Triple Beam with Radiance Prism for Your Theater?

This flagship model is designed for Big professional Cinema Venues who demand nothing less than the best. Whether it's a blockbuster movie, a VFX experience, or a high-impact animation, the Jokine3D Big Triple Beam delivers unmatched quality, adaptability, and amazing cinematic experience.

The Jokine3D Big Triple Beam is a 3D masterpiece.

Choose Excellence. Choose Jokine3D

When your audience demands perfection, the Jokine3D Big Triple Beam with Radiance Prism guarantees a superior immersive cinematic experience along with a pop out effect no other system can match.

Reliable dependability with Jokine3D

The Jokine3D Big Triple Beam precision engineering ensures 100% reliability, even under demanding conditions. Its robust design and superior technology deliver consistent, flawless performance, making it the most dependable choice for any theater.

5-Year Complete Warranty

- **Peace of Mind:**

Unlike other alternatives, only Jokine3D offers a comprehensive 5-year warranty that covers the entire system. This unparalleled warranty reflects our confidence in the product's durability and performance.

- **Uninterrupted Operations:**

With the backing of our warranty, you can operate with full confidence, knowing your system is protected against unforeseen issues.

WHY CHOOSE?

Designed for Dependability

1. Consistent Performance

- Advanced technology ensures stunning visuals, immersive 3D effects, and smooth operation—regardless of the number of shows.
- Built to handle peak demand without overheating or performance degradation.

2. Future-Proof Technology

- The Radiance Prism and Big Triple Beam lens are designed to integrate seamlessly with evolving cinema technologies, keeping your investment relevant for years to come..

3. Audience Satisfaction

- A flawless 3D experience creates happy audiences, fostering loyalty, repeat visits, and positive word-of-mouth for your theater.

Choose Excellence. Choose Jokine3D.

Don't leave your reputation to chance with inferior equipment. Invest in a system that matches your commitment to quality—choose Jokine3D.
